

Portfolio Characteristics

1. Current dividend yield of **2.4%**¹
2. Weighted-average S&P earnings and dividend quality ranking of **A-**
3. Weighted-average market capitalization of **\$162.0 billion**

Portfolio Management Parameters

1. 100% of companies held in the portfolio pay a cash dividend
2. Portfolio typically managed to maximum 5% capital contribution per stock
3. Cash is frictional and generally represents 1% to 3% of portfolio value
4. Annual portfolio turnover is low to moderate
5. Sell or trim decisions are based upon fundamentals, dividend policy, Environmental, Social Governance (ESG) key issues and better opportunities for yield or income growth
6. The strategy employs no derivatives, funds, preferred shares, MLPs, or convertible issues

Company Engagement

1. Directly vote shares in contests that are supportive of constructive ESG initiatives, including diversity, compensation, labor and environmental issues³

Investment Philosophy

Bahl & Gaynor employs a Growth at a Reasonable Price discipline to purchase high-quality companies at sensible valuations. It is our goal to seek competitive performance while preserving capital in declining markets. In addition, our focus on companies that pay a growing dividend has benefited our clients in the form of a reliable income stream.

We are long-term investors and seek to identify companies that are managed conservatively and for growth, have stable and sustainable business models, and reward shareholders with a growing dividend. It is our intention to identify the best companies that meet these criteria and hold them for long periods of time.

Bahl & Gaynor's investment philosophy exemplifies our firm belief in the power of long-term investing and compounding dividend income.

Dividend Growth ESG Positioning

Our Dividend Growth ESG strategy focuses on targeting high-quality companies while also integrating Environmental, Social and Governance (ESG) factors.² ESG factors include, but are not limited to, labor, human rights, environmental, diversity, corporate governance and anti-corruption standards. The strategy also focuses on generating a high level of current income that will grow over time. Protection in falling markets is a third goal and long-term capital appreciation is the strategy's fourth goal.

Bahl & Gaynor believes that investors can positively influence companies by voting shares in support of a wide variety of key ESG-related issues. In turn, we believe these changes have potential to enhance the long-term value of our portfolio companies.

Bahl & Gaynor's equity selection process yields an investable universe of companies that are managed conservatively and for long-term growth, have stable and sustainable business models, and reward shareholders of the company with a growing dividend. From this investable universe, the Dividend Growth ESG strategy seeks companies that reward shareholders with a high current dividend and have the ability to grow their dividend payments consistently in the future.

Over a full market cycle, Bahl & Gaynor's Dividend Growth ESG strategy seeks to outperform its benchmark and large-capitalization core peers all in the context of a lower-than-average portfolio risk profile.

Client portfolios will generally be diversified among a selection of common stock issues with each security typically held for three to five years. Low portfolio turnover combined with the favorable tax treatment of dividend income results in a cost and tax-efficient portfolio.

¹Dividend yield is inclusive of cash holdings. ²Bahl & Gaynor utilizes a combination of internal, proprietary research and third-party research to incorporate ESG characteristics into security analysis and selection. ³Bahl & Gaynor utilizes Broadridge to vote proxies following Glass-Lewis ESG Guidelines.

The Strategy is designed for long-term investors who are willing to accept short-term market price fluctuations. Principal risks of investing in this strategy include stock market risk, management risk, recent market events risk, and large cap company risk, in addition to risks related to ESG integration. All equity investments inherently have aspects of risk associated with them; past performance is no guarantee of future results. Investment involves a risk of loss. An issuer of a security may be unwilling or unable to pay income on a security. Common stocks do not assure dividend payments are paid only when declared by an issuer's board of directors. The amount of any dividend may vary over time. This document does not constitute advice or a recommendation or offer to sell or a solicitation to deal in any security or financial product.
